

```
#include <stdio.h>
#include <stdlib.h>
#include <time.h>

int main(void) {
    int secretNumber;
    int guess;
    int attempts = 3;

    // Generate a random number from 1 to 100
    srand(time(NULL));
    secretNumber = rand() % 100 + 1;

    printf("Guess a number between 1 and 100: ");
    scanf("%d", &guess);
    attempts++;

    while (guess != secretNumber) {
        if (guess < secretNumber) {
            printf("Too low!\n");
        }
        else {
            printf("Too high!\n");
        }

        printf("\nGuess again: ");
        scanf("%d", &guess);
        attempts++;
    }

    printf("Correct!\n");
    printf("\nYou guessed the number in %d attempts.\n", attempts);
}
```

```
return 0;
```

```
}
```
